
Bespoke WordPress Traning

Professional WordPress Training
by United Experts

100%
CUSTOM

100% CUSTOMIZABLE TRAINING

With Private and Bespoke packages training customisation starts with the unique topics you wish to explore. The pace and skill level of the training are adjusted to fit your needs, as are the place, date and time of delivery. Most importantly, it is exclusively about your project, not generic use of WordPress.

YOUR LOCATION
United Experts can deliver the training at your office anywhere within the United Kingdom, Europe, United States, Canada, U.A.E., New Zealand, Australia, Malaysia, and Singapore.

YOUR DATE & TIME
Choose a training date and time that best suits your team. We can even split multi-day training across separate, no-subsequent days.

YOUR TOPICS
Each training can be customised to cover only your selection of topics. You can start with a blank canvas or base your customization on one of our ready courses.

YOUR PACE & SKILL LEVEL
We believe that proper adjustment of learning pace and targeted skill level are the most important foundations of successful training.

YOUR PROJECT
Of course, the entire training would be put in the context of your WordPress project. Moreover, throughout the training we can use your own WordPress solution instead of our generic demo project.

YOUR TRAINING MATERIALS & RESOURCES
As part of every training we provide a standard set of quality WordPress guides, presentations, and samples. Bespoke training goes further in customising those resources to best accommodate your requirements.

Learn from the world's best Fortune 500 consultants

All our WordPress courses are delivered by senior consultants who possess not only in-depth knowledge of WordPress but also vast industry experience and top education. That doesn't only guarantee their ability to fully respond to any question, problem or challenge but also presents a unique opportunity to learn from consultants who work on projects for brands like Microsoft, PwC, Hitachi, Best Western Hotels...

Training Locations

Join as at United Experts' Learn & Lounge spots in London, Dublin, and New York or we will come to your office almost anywhere in the world.

UK & EUROPE
